2021-07-20 08:07:00 From: mjd210eKd69BxG4lsJD To: admin Subject: Question about Motives

Good day Admin!

I have a couple targets husband wife that I am needing removed. However, it is known that they and I dont quite see eye-to-eye on something. I am a couple days away from submitting the job as an accident, but before I do, I was wondering, in your experience, even if it is an obvious accident, what kind of investigation will be ran against me, knowing that we are not on the best of terms?

I have the \$\$ in CoinBase, but is there something I can do, to help obfuscate my role in this? Will agencies be looking into my CoinBase history?

Thank you in advance!

2021-07-20 12:34:00 From: admin To: mjd210eKd69BxG4lsJD Subject: Re: Question about Motives

No cointbase will not be looked into

We also have built in mixer and all transactions are mixed so that traces are broken between coinbase and this site

When an accident happen, the investigation will be minimu, no checks will be made against you

We can do it like this, the hitman will steal a car, a truck or something that is heavier, and will follow the target and crash the car into the target pretend to be a drunk driver that runs away from the place of the accident

we will tell you the date in advance of the murder, so you can travel in a different city and be in a place with surveillance cameras

everything will be looking like a drunk driver stole a car and caused an accident

2021-07-20 12:46:00 From: mjd210eKd69BxG4lsJD To: admin Subject: Re: Re: Question about Motives

They most likely will have 3 children in the car with them... I am really trying to avoid them from being hurt.

CF

I'm wondering if a mugging-gone-wrong might be an option. Or maybe you have another suggestion? One of the children is 13 or so, but slow, so maybe his testimony could help avoid scrutiny/investigation.

They currently live in NY.

Thank you for your quick response.

2021-07-20 13:21:00 From: mjd210eKd69BxG4lsJD To: admin Subject: Re: Re: Question about Motives

I have about 17k in coinbase, but am having to wait the 7 days probation period to send it out. I was wanting to use dark escrow, but was going to send it through my Samurai wallet, just in case the dark escrow address is flagged.

Will 17k probably closer to 16k after fees be sufficient to have an accident of a husband/wife in NY? I spoke with Thaind, and they thought 15k would be a good price.

Thoughts?

2021-07-20 14:18:00 From: admin To: mjd210eKd69BxG4lsJD Subject: Re: Re: Re: Question about Motives

Yes, 16k is sufficient for the accident to happen. Samurai wallet is ok dark escrow is also ok, please create an escrow transaction there and send us the view code.

You can create the escrow transaction now, even if you send funds 7 days later, I don't think they will delete the transaction instead will be waiting for funds until you send it

2021-07-20 14:21:00 From: admin To: mjd210eKd69BxG4lsJD Subject: Re: Re: Re: Question about Motives

Yes, a mugging gone wrong is a better option if the target has kids in the car.

When the mugging gone wrong happens, they will search for the thief and not for you. You will not be checked in any way.

If you are in a different city at that time, that is even better

2021-07-22 00:13:00 From: admin To: mjd210eKd69BxG4lsJD Subject: update in v2

When checking the escrow transaction you made, we discovered that the escrow address

<http://escrow2m7gowjfzh.onion> was not working any more. We first thought their site is down, but then we found out that their address was not working any more because Tor remove support for old addresses that are short.

We contacted tor support and got in touch with other website owners that were using their escrow and we found the new address of their site

<http://qbbh5myjw3b6low5axz2clbsuwzivyplf64uxzc7t5kngatzbjljkqd.onion>

Please book mark their address as it seems the old address is not working

Because we dint wanted our hitman marketplace address to stop working as well and be unreachable, we urged our webmaster IT specialist to upgrade our address from old V2 short to the new V3 long address.

Our new old address is being redirected to the new address. Our smart webmaster knows how to do this and he successfully redirected all traffic from old address to the new address for our hitman marketplace .

CP

Unfortunately the webmaster of that external escrow seems he doesn't know how to keep old address active, so you need to bookmark it.

It was good we discovered old addresses might not work so we could upgrade in time for our own site

Please let me know once you put bitcoin to the dark bitcoin escrow, so we can proceed. I checked the view code and the transaction is there, only their site address has been changed to the new long version, seems that everything else is intact

the btc to usd value fluctuates a lot it increases and decreases...

28

i suggest you let the escrow transaction as it is... if you create new transaction and btc value changes then you need to create a new transaction and then new transaction and so on... waisting your time...

if the btc value is higher when job is completed, we will return you the extra btc, like \$600 or whatever is more than the price

Would you like me to use the Order function for the job?

Thaid has also reached out to me and mentioned he could do the job. Would you reccommend I work directly with him or something else?

It just needs to look like an accident. So, whoever you have that is good at that would be good.
